## What is EMU Oil?

Alice Naturals features revolutionary Emu Oil, an all-natural oil derived from the Emu bird of Australia. Consisting of approximately 70 percent unsaturated fatty acids and roughly 20 percent Omega 6 and Omega 3 acids, Emu Oil is heralded by many cosmetic experts as the new “youth serum.”

Emu Oil has been used for thousands of years by Australian aborigines to treat burns, wounds, bruises, scars and other skin irritations. It is a completely safe, 100% natural moisturizer and pain reliever used in skin care and beauty products for the body, skin, nails, and hair. Emu oil contains no steroids or hormones.

Benefits for your skin:

- Penetrates through and conditions multiple layers of skin.
- Promotes healing of burns, wounds, injuries, minor cuts and scratches.
- Prevents and reduces scarring by enhancing the skin's growth activity.
- Improves the condition and rate of growth of hair, skin and nails.
- Soothes discomfort from sunburns, insect bites, acne, eczema and rashes.
- Helps skin to withstand colder climates.

*“Emu Oil has gained recognition for its healing properties, and is now being used by many cosmetic companies in products that promote youthful, healthy skin. We believe it is an essential element in our line of products that customers will find effective in lessening the appearance of wrinkles and improving the texture of their skin.”*
